Thank you for contacting Phillips 66 Product Safety. Per your request, please find the attached Material Safety Data Sheet. Please note this is a discontinued product, therefore the SDS will not be updated going forward. However, it is still considered valid for the material.

For your convenience, all SDSs for our current products are OSHA HCS 2012 (29 CFR 1910.1200), Health Canada HPR (SOR/2015-17), and Mexico NOM-018-STPS-2015 (available in English, French, and Spanish) and may be found on our website at www.phillips66.com/SDS. You may also send requests to SDS@P66.COM or call (877)445-9198 or (800)762-0942.

Best Regards,

Derek
