

1 Identification

Product identifier

Product name: Hexafluorosilicic acid, 23% w/w aqueous solution

Stock number: 69109

Relevant identified uses of the substance or mixture and uses advised against. Identified use: SU24 Scientific research and development Details of the supplier of the safety data sheet

Manufacturer/Supplier:

Alfa Aesar Thermo Fisher Scientific Chemicals, Inc. Ward Hill, MA 01835-8099 Tel: 800-343-0660 Fax: 800-322-4757 Email: tech@alfa.com www.alfa.com Information Department: Health, Safety and Environmental Department Emergency telephone number: During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.

2 Hazard(s) identification

Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)

Skin Corr. 1B H314 Causes severe skin burns and eye damage. Hazards not otherwise classified No information known.

Label elements

Signal word Danger

GHS label elements The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS) Hazard pictograms

Hazard-determining components of labeling: Hexafluorosilicic acid Hazard statements H314 Causes severe skin burns and eye damage. Precautionary statements P260 Do not breathe dust/fume/gas/mist/vapours/spray. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations. P405 P50 WHMIS classification D2B - Toxic material causing other toxic effects E - Corrosive material of the

Classification system HMIS ratings (scale 0-4) (Hazardous Materials Identification System)

 Image: Constraint and the sector of the s

Other hazards Results of PBT and vPvB assessment **PBT:** Not applicable. **vPvB:** Not applicable.

3 Composition/information on ingredients

Chemical characterization: Mixtures		
Dangerous components:		
16961-83-4 Hexafluorosilicic acid	🚸 Skin Corr. 1B, H314	23.0%
Additional information None known.		
Non-Hazardous Ingredients		
7732-18-5 Water		77.0%

4 First-aid measures

Description of first aid measures

General information Immediately remove any clothing soiled by the product. After inhalation

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Seek immediate medical advice. After skin contact

Immediately wash with water and soap and rinse thoroughly. Seek immediate medical advice.

After eye contact these queries dept for several minutes under running water. Then consult is dictor. After several minutes are several minutes under running water. Then consult is dictor. After several minutes are several minutes in the running water. Then consult is dictor. After several minutes are several minutes in the running water. Then consult is dictor. Alequipment and emergence and a severage accounce. Wear profession equipment. Depages of content sectors See Sectors 1 for profession equipment. See Sectors 1 for profession equipment	Extinguishing media Suitable extinguishing agents Product is not flammable. Use fire-fighting measures that suit the surrounding fire. Special hazards arising from the substance or mixture If this product is involved in a fire, the following can be released: Hydrogen fluoride (HF) Silicon oxide Advice for firefighters Protective equipment: Wear self-contained respirator.	
Handling Precautions for safe handling Keep container tighty seeled Store in rood, by place in the hit vectoplace. Enditional about protection against explosions and fires: The product is not flammable Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Information about storage in one common storage facility: Store away from oxidizing agents. Information about storage in one common storage facility: Store away from oxidizing agents. Information about design of technical systems: Specific and use(s) No Interventional storage facility: Store away from oxidizing agents. Specific and use(s) No Interventional storage facility: Store away from oxidizing agents. Information about design of technical systems: Properily quaranteget there relevant information available. 8 Exposure controls/personal protection Additional information bout design of technical systems: Properily quaranteget there relevant information any relevant quantities of materials with critical values that have to be monitored at the workplace. Additional information: No data Exposure controls are protective equipment General protective equipment Personal protective and hygienic measures The usail precautionery measures for handling chemicals should be followed. The product desity should be not handling the minicals should be followed. The product desity should be not handling the minicals should be followed. The control suitable resolution when high concentrations are present. Protective and hygienic measures The studie desity should be should be only depends on the material. Maintain an ergonomically appropriate working environment. Maintain an ergonomically appropriate working envinomment. Protection of studies protective equipment D	Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Environmental precautions: Do not allow product to reach sewage system or any water course. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralizing agent. Dispose of contaminated material as waste according to section 13. Ensure adequate ventilation. Prevention of secondary hazards: No special measures required. Reference to other sections See Section 7 for information on safe handling	
Additional information about design of technical systems: Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute. Control parameters Presonal protective and hygienic measures The word protective and hygienic measures The usual precautionary measures for handling chemicals should be followed. Keep away from foodking. betroer bereaks and at the end of work. Do not inhale dust / smoke / mist. Avoid contact with the eyes and skin. Maintain an ergonomically appropriate working environment. Breating equipment: Check protection of suitable gloves nori to each use for their proper condition. <td>Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers. Ensure good ventilation at the workplace. Information about protection against explosions and fires: The product is not flammable Conditions for safe storage, including any incompatibilities Storage Requirements to be met by storerooms and receptacles: No special requirements. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.</td> <td></td>	Handling Precautions for safe handling Keep container tightly sealed. Store in cool, dry place in tightly closed containers.
